## PROFESSIONAL SUMMARY

"Motivated MCA student with a solid foundation in front-end development, web design, database management, and business operations. Skilled in problem-solving, teamwork, and leadership, with a strong passion for software development, process optimization, and project coordination. Highly adaptable and eager to apply technical expertise and analytical thinking in dynamic work environments."

## EDUCATION

- **Master of Computer Application (MCA)** - Mahatma Gandhi University, Kerala India. (2024 – Present)
- **Bachelor of Computer Application (BCA)** - Mahatma Gandhi University, Kerala India. (2021 – 2024)

## SKILLS SUMMARY

- **Languages:** Python, SQL, JAVA, C, C++, PHP.
- **Tools:** chatGPT, PowerPoint, Bootstrap, MySQL, Adobe Photoshop, Canva, GravityWrite.
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code.
- **Soft Skills:** Excellent communication, Presentation, Leadership, Teamwork, Attention to detail, Adaptability.

## PROJECTS

- Service-Oriented Website.** (January 24- February 2024)
- Technologies Used: HTML, CSS, JavaScript, Python (Django), MySQL.
- Developed a fully functional service-oriented website for my main project.
  - Focused on front-end design and database integration to enhance user experience.
  - Implemented user registration, listings, and adoption requests for streamlined service management.

- E - Commerce Website.** (July 23- August 2023)
- Technologies Used: HTML, CSS, PHP, SQL
- Designed and built an e-commerce platform for smartphone sales with an interactive UI.
  - Implemented cart functionality and dynamic product display using PHP & SQL.
  - Ensured a responsive and user-friendly experience across devices.

## CERTIFICATES

- Web Designing (Udemy) | CERTIFICATE | 2022**
- Developed interactive and aesthetically appealing web interfaces, implementing modern design trends, typography etc.
  - Gained expertise in UI/UX design principles and responsive web development using HTML, CSS, and JavaScript.
- C & C++ (Udemy) | CERTIFICATE | 2023**
- Mastered fundamental programming concepts, including OOP, control structures, and data structures.
  - Built hands-on projects to strengthen problem-solving and logical thinking skills.
- Project Management Basics (Simplilearn) | CERTIFICATE | 2024**
- Understood core project management methodologies, including Agile, Scrum, and Waterfall, for effective execution.
  - Learned best practices for planning, executing, and closing projects efficiently while managing risks and timelines.
- SQL for Data Analysis (Linkedin Learning) | CERTIFICATE | 2025**
- Acquired foundational to intermediate-level skills in writing SQL queries.
  - Gained practical experience with real-world datasets to perform data analysis.
- Basics in Python (Linkedin Learning) | CERTIFICATE | 2025**
- Acquired foundational to intermediate-level skills in Python programming, including variables, data types, operators, and control flow.
  - Gained practical experience by writing scripts and solving real-world problems using functions, loops, and data structures like lists and dictionaries.
